

# First Response

Safety Data Sheet

Revision date: 10/22/2014

Version: 2.0

## SECTION 1: Identification

**Product form:** Dry Powder

**Substance name:** Mixture

**CAS No.:** None

**Synonyms:** Cellulose Fiber

**Intended Use Of The Product:** Lost Circulation Material

Turbo-Chem International, INC.

P.O. Box 60383

Lafayette, LA 70596

1.337.235.3098

**Emergency number :** (Chemtrec)1.800.424.9300

## SECTION 2: Hazards identification

### GHS-US classification

Eye Irrit. H320

Resp Irrit. H335

Skin Irrit. H316

GHS07

**Signal word (GHS-US)**

: Warning

**Hazard statements (GHS-US)**

H320 - May cause eye irritation

H335 - May cause respiratory irritation

H315- May cause skin irritation

**Precautionary statements (GHS-US)**

P280 - Wear protective gloves/eye protection.

P284 - Wear respiratory protection.

## First Response

### Safety Data Sheet

P301+P321+P315 - If ingested: Drink 2 glasses of water & induce vomiting only if the person is conscious. Seek medical attention.

P304+P341+P315 - If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Seek medical attention if necessary.

P302+P352 - If on skin: Thoroughly wash exposed areas with soap and water.

P306+P362 - Remove contaminated clothing. Launder separately before use.

P305+P351+P338 - If in eyes: Rinse cautiously with water for 15 minutes.

Remove contact lenses if present and easy to do - Continue rinsing

P501 - Dispose of contents/container according to local, regional, national, and international regulations.

## SECTION 3: Composition/information on ingredients

Name	CAS #	%	GHS-US classification
Calcium Oxide	1305-78-8	Proprietary	Eye Irrit. 2A H319, Skin Irrit. 2A H315, Resp Irrit P304+P341
Crystalline Silica	14808-60-7	Proprietary	Known Carcinogen

## SECTION 4: First aid measures

**First-aid measures general:** Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice.

**First-aid measures after inhalation:** When symptoms occur: Remove to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER/doctor/physician if you feel unwell.

**First-aid measures after skin contact:** Thoroughly wash exposed areas with soap and water. Remove contaminated clothing and launder separately before reuse.

**First-aid measures after eye contact:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

**First-aid measures after ingestion:** Give 2 glasses of water and induce vomiting only if the person is conscious.

### Most important symptoms and effects, both acute and delayed

**Symptoms/injuries:** Eye irritation.

**Symptoms/injuries after inhalation:** Prolonged and cont. exposure may lead to respiratory tract irritation or damage. Long term inhalation of particles may produce silicosis (progressive pulmonary fibrosis).

**Symptoms/injuries after eye contact:** May cause burns.

**Symptoms/injuries after ingestion:** May cause damage to mucous membranes.

### Indication of any immediate medical attention and special treatment needed

If medical advice is needed, have product container or label at hand.

## SECTION 5: Firefighting measures

### Extinguishing media

**Suitable extinguishing media:** Water, Dry chemical, alcohol foam, carbon dioxide.

### Special hazards arising from the substance or mixture

**Fire hazard:** None known

**Hazardous Combustion / Decomposition Products:** Oxides of carbon.

### Advice for firefighters

**Firefighting instructions / Special Firefighting Equipment:** Wear self-contained breathing apparatus with full face piece operated in the positive pressure mode when fighting fires.

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency

**procedures General measures:** Avoid creating dust. Wet down spill if dusty.

### For non-emergency personnel

**Protective equipment:** Use appropriate personal protection equipment (PPE).

### Environmental precautions

Prevent entry to sewers and public waters.

### Methods and material for containment and cleaning up:

**Methods for cleaning up:** Vacuum or scoop up

### Reference to other sections

See heading 13 for disposal information.

## SECTION 7: Handling and storage

**Precautions for safe handling:** Do not get in eyes. Avoid breathing in dust.

**Hygiene measures:** Handle in accordance with good industrial hygiene and safety procedures. Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and again when leaving work.

**Storage conditions:** Store in a dry location away from acids.

**Incompatible products/materials:** Fluorine, Chlorine Tri fluoride, Hydrofluoric Acid, Oxygen Difluoride, strong acids

## SECTION 8: Exposure controls/personal protection

### Control parameters

Calcium Oxide:		
USA OSHA	OSHA PEL (TWA) (mg/m3)	5 mg/m <sup>3</sup>
	TLV	5 mg/m <sup>3</sup>
May contain <1% Crystalline Silica (Quartz):		0.1 mg/m <sup>3</sup> for respirable dust and <25% Cristobalite
USA OSHA	OSHA PEL (TWA) (mg/m3) TLV	.05 mg/m <sup>3</sup> for respirable dust

## First Response

### Safety Data Sheet

#### Exposure controls

Appropriate engineering controls : Ensure all national/local regulations are observed.

Personal protective equipment : Insufficient ventilation: wear respiratory protection. Protective goggles and gloves

Hand protection : Chemical Resistant Gloves  
Eye protection : Chemical Splash Goggles  
Skin and body protection : None  
Respiratory protection : NIOSH approved respirators for dust.

Other information : Provide sufficient mechanical ventilation to maintain exposures below TLV

## SECTION 9: Physical and chemical properties

### Information on basic physical and chemical properties

Physical state : Solid  
Appearance : Powder  
Colour : Off white to grey  
Odour : No data Available  
Odour threshold : No data available:  
pH : 11.5-12.8  
Relative evaporation rate (butylacetate=1) : No data available  
Melting point : No data available  
Freezing point : No data available  
Boiling point : No data available  
Flash Point : Not known  
Auto-ignition temperature : >200 C  
Decomposition Temperature : No data available  
Flammability (solid, gas) : No data available :  
Vapour pressure : No data available  
Relative vapour density at 20 °C : No data available  
Relative density  
Density : 1.75 (SG) :  
Solubility : No data available  
Log Pow : No data available  
Log Kow : No data available  
Viscosity, kinematic : No data available  
Viscosity, dynamic : No data available  
Explosive properties : No data available  
Oxidising properties : No data available  
Explosive limits : Not applicable

## SECTION 10: Stability and reactivity

**Stability** Stable under recommended storage conditions.

Hazardous polymerization does not occur.

**Conditions to Avoid** Avoid dust formations.

## First Response

### Safety Data Sheet

**Incompatible Materials** Fluorine, Chlorine Tri fluoride, Hydrofluoric Acid, Oxygen Difluoride, strong acids.

**Hazardous Decomposition Products** Carbon oxides (CO, CO<sub>2</sub>) may form on combustion.

## SECTION 11: Toxicological information

### Information on toxicological effects

Acute toxicity : Not classified

<b>First Response</b>	
	: No toxicological data is available for this product.

**Skin corrosion/irritation:** May cause irritation

**Serious eye damage/irritation:** May cause eye irritation.

**Respiratory or skin irritation:** Prolonged exposure may cause Silicosis

**Germ cell mutagenicity:** Not classified

**Carcinogenicity:** IARC classifies crystalline silica as a suspected carcinogen.

**Reproductive toxicity:** No

**Specific target organ toxicity (single exposure):** None

**Specific target organ toxicity (repeated exposure):** Prolonged exposure may cause damage to mucous membrane and silicosis (prog. pulmonary fibrosis)

**Aspiration hazard:** Not classified

**Symptoms/injuries after inhalation:**

**Symptoms/injuries after eye contact:** Eye irritation.

**Symptoms/injuries after ingestion:** M cause damage to the mucous membrane

## SECTION 12: Ecological information

### Toxicity

<b>First Response</b>	
<b>M. Bahia 96 hr LC50</b>	185,090 ppm
	First Response passes the 30,000 EPA Toxicity criteria@ 100 ppb in
	Fresh Water.

### Bioaccumulative potential

<b>First Response</b>	
<b>Bioaccumulative potential</b>	Not established.

### Mobility in soil

No additional information available

## SECTION 13: Disposal considerations

### Waste treatment methods

**Water disposal Method:** Place in approved waste disposal facility complying with all governmental regulations.

## First Response

Safety Data Sheet

### SECTION 14: Transport information

In accordance with DOT,TDG,IMDG,ICAO/IATA

: Not regulated for transportation

### SECTION 15: Regulatory information

#### US Federal regulations

##### First Response

Sara 311/312 Hazard Category: Acute

**This product contains no chemicals which are listed as hazardous waste when disposed of.**

31 TAC 335.501+ Provides for self classification of industrial solid waste. This product and empty containers which contained this product may be classified as Class 2 waste.

#### US State regulations

##### EZ Squeeze

State or local regulations : Not regulated for transportation.

### SECTION 16: Other information

Indication of changes : 04/22/2014

Other information : This document has been prepared in accordance with the SDS requirements of the OSHA Hazard Communication Standard 29 CFR 1910.1200.

#### GHS Full Text Phrases:

H320	May cause eye irritation
H335	May cause respiratory irritation
H315	May cause skin irritation

**NFPA health hazard** : 1 - Exposure could cause irritation but only minor residual injury even if no treatment is given.

**NFPA fire hazard** : 1 - Combustible if heated

**NFPA reactivity** : 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.

#### HMIS III Rating

**Health** : 1 Slight Hazard - Irritation or minor reversible injury possible

**Flammability** : 2 Moderate Hazard

**Physical** : 0 Minimal Hazard

*This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.*
