# Turbo-Clean

Environmentally Safe Surfactant Blend for Surfaces Contaminated with Water, Oil and Synthetic Base Muds.

## DESCRIPTION

Turbo-Clean is an all-purpose industrial water soluble cleaning compound. It is composed of biodegradable amphoteric surfactants with a non-irritating silicate complex added. Turbo-Clean does not contain hazardous butyls or caustic soda.

## TYPICAL PHYSICAL PROPERTIES:

- Density: 8.5 ppg
- Flash Point: None
- Appearance: Clear Blue Liquid
- Solubility: Completely in water

## RECOMMENDED TREATMENT:

Turbo-Clean can be used in as-is condition, but the standard 1-10 or 1-20 dilution is recommended. Premix with water for general purpose cleaning with rags, brushes or pressure sprayers. For use as a degreaser, apply full strength to heavy oil stains and allow soaking for 30 minutes, then brush or spray. Rinse thoroughly after application

## BENEFITS:

- ✓ Excellent at removing grease and oil.
- ✓ No solvents or pollutants.
- ✓ Tremendous at cleaning rig floors and equipment.

## Handling and Packaging:

Turbo-Clean is available in 5 gallon pails, 55 gallon drums or in bulk quantity. This product is a non-hazardous biodegradable surfactant blend with a non-toxic silicate added. As with all chemicals, protective clothing and eyewear should be worn when applying. Avoid ingestion and eye contact.
