Turbo-Hib B

Corrosion Inhibitor, Oxygen Scavenger, Biocide 3in1

DESCRIPTION

Turbo-Hib B is an aqueous quaternary amine corrosion inhibitor / oxygen scavenger / Biocide that is effective against all types of corrosion including corrosion resultant to sweet (CO₂) and sour (H₂S) gas. Turbo-Hib B contains an effective biocide component which will kill existing bacteria and prevent additional colony growth. Turbo-Hib B forms an amine/bisulfite film on metal surfaces and prevents corrosion during drilling operations where change in pressure and temperature accelerate the corrosion of drill pipe

TYPICAL PHYSICAL PROPERTIES:

- Appearance: Dark Brown Liquid
- Density: 8.18 ppg
Specific Gravity: 0.982
- Solubility in Oil: Dispersible
- Solubility in water/glycol: Soluble/Soluble
- Flash Point PMCC: >126F

RECOMMENDED TREATMENT:

Normal : Recommended treatment is by batch or continuous addition into water lines and pipelines. It may be added to mud pits, side stream for treating pumping wells, and by chemical or capillary tubing for treating flowing wells. Add to injection gas to protect gas lift wells. Can be added undiluted or diluted in water, alcohol or glycol.

DRILLING FLUID ADDITION COMPATIBILITY:

Turbo-Hib B is compatible in a variety of fluids.

Applications:

- ✓ Drilling Fluids
- ✓ Disposal Water Systems
- ✓ Produced Water Disposal Systems
- ✓ Casing-Tubing annulus protection in producing or injection wells.
- ✓ Completion Fluids
- ✓ Brine Storage Facilities & Oil Production water injection systems.

HANDLING: Turbo-Hib 3 is available in 5 gal pails, 55 ga drums and 275 ga tote quantities.
